

Room Layouts

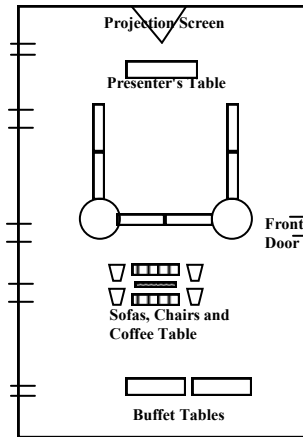

We can arrange the space in a specialized manner for your specific needs or size. We have some example layouts below. By no means are they an exhaustive list. We would be happy to design a specific layout for your event.

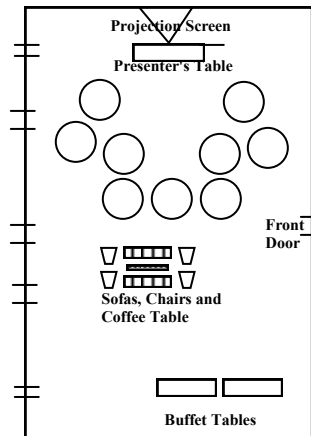

Maximum Capacity with Round Tables: 125 people

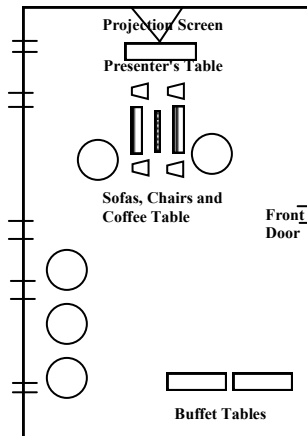

Maximum Capacity with 8'x18" Rectangular Tables: 160 people (4 to a table) ††

"U" style seating. Seats a maximum of 30. Can also work for smaller groups .

Seats 45 people. (Five per table facing Presenter.) This arrangement works best with groups in size 20-50.

Ideal for smaller groups (10-15). Seating in furniture grouping and around tables for eating. Great during the winter with a fire!

† Seating is 5 persons around a table instead of 8 as to assure that no one has to turn around for the presenter. The five seats face the presenter.

†† Clients who choose this set-up are responsible for the payment of the rectangular tables. Five Oaks will order, set-up and dismantle the tables. Usual cost is \$6.00- \$8.00 per table.
